### Maths

#### Multiplication & Division

In maths this term, children will be learning how to multiply two-digit numbers by one digit number using formal written methods. They will solve missing number problems as well as write and calculate mathematical statements. In addition to these, they will be learning about Geometry (3d shapes) and how to add and subtract problems involving money.

### English :

This term, children will be writing a setting description and a non-chronological report based on 'The Great Storm' and stone age era. Some of the grammar skills they will be using include: expanded noun phrases, present tense, adverbials, prepositional phrases and subordination.

### History: Stone Age to Iron Age

This term, the children will begin to look at the Stone Age, leading to the Iron Age. They will create a timeline and focus on Palaeolithic, Mesolithic and Neolithic periods and begin to look at the advancement of tools & inventions over time.

### Science: Rocks

This term the children will identify, learn about and compare different types of rocks and their properties. In addition, they will learn about different types of soils and how fossils are formed.

### PHSE: Celebrating Differences

Children will learn about families, that they are all different and that sometimes they fall out with each other. The children will also talk about techniques to calm themselves down and discuss a technique called 'solve it together.' The children will also revisit the topic of bullying and talk about being a witness (bystander). They will talk about how a witness has choices and how these choices can affect the bullying that is taking place.

### Physical Education

#### Outdoor: Invasion games-passing and creating space

In this unit children will be learning various ball games using a range of technique, which involves passing and throwing.

#### Indoor: Gymnastics

Children will develop their skills in travelling with a change of direction.

### Art : Stone age painting

The children will be using various skills and techniques to create their own stone age inspired cave paintings.

### Geography:

This term, children will be learning about the 9 regions of the UK, with a basic knowledge that regions are more than just one country. They will also learn about the human and physical geography of their region, comparing them with other regions.

### Music

Children will listen and discuss a composition. They will play a single accompaniment, develop an improvisation and sing an ensemble.

### Spanish

This term, children will be able to express how they feel in Spanish, ask others how they are and respond, say their names and numbers from 11-20.

### Computing: Computer systems and network

Children will be learning about digital devices, connection and school networks. They will also be learning and creating their own animations.
